

Candidate Statement
Jarred Muraco

I first entered the financial services in 2007 as a generalist, but in 2009 I began exclusively working with the top 1% of families. I specialize in bespoke planning strategies, but also provide standard planning solutions.

I wish to serve on the board of directors because I care about the school; I care about teachers and staff being treated with dignity and respect and paid fairly, but most importantly about the students. These children have an opportunity to learn about western society and how it is responsible for building the world as we know it today. Sadly enough, American exceptionalism is no longer taught in public schools. At CCA, children will be taught how to think rather than what to think.

I believe I can bring value to the board through my 19 year career in the insurance and financial services industry. I have both my own accumulated knowledge and experience as well as a robust network of professionals in the tax, legal and insurance spaces.
